Annual review log

Use this page to record that you reviewed your organizer. This does not replace professional legal advice or state-specific requirements.

Safe storage reminders

- Keep original signed documents in the place recommended by your licensed professional or local rules.
- Tell a trusted person where important documents can be found, but do not share private credentials casually.
- Use password-manager emergency access features instead of writing passwords in a binder.
- Review after major life events: marriage, divorce, birth/adoption, moving states, major asset change, death of a named person, or major relationship change.
- Confirm beneficiary designations directly with the financial institution or plan administrator.
