

Will Checklist Quick-Start Guide

A simple way to use the site safely. Educational organizer only - not legal advice.

Privacy rule: Use labels and locations only. Do not write passwords, Social Security numbers, full account numbers, safe codes, private keys, seed phrases, or confidential legal strategy in website forms.

Use this site in 5 steps

1	Start the Setup Wizard Answer one question at a time. Let the site recommend your next step.
2	Open the Dashboard Use it as home base. It shows progress saved in this browser.
3	Complete the Main Checklist Check what applies. Skip what does not. Add only general questions.
4	Use the Document Locator Record where documents are stored. Never write codes or private numbers.
5	Build a Summary Create a high-level brief you can print, copy, or bring to a professional.

What each button means

Button	Plain-English meaning
Copy	Copies visible summary text so you can paste it somewhere private.
Print	Opens your browser print dialog. You can print to paper or save as PDF.
Reset	Clears saved progress for that specific tool in this browser.
Export backup	Downloads a local progress file. Store it privately if you use it.

Safe vs. Unsafe Examples

Keep sensitive details offline or with a qualified professional. The site is for organization, not secure storage.

Topic	Safe to type	Do not type
Bank account	Checking account at my bank - statement in finance folder	Full account number, login, PIN, password
Insurance	Life insurance policy - verify beneficiary with provider	Policy number or login credentials
Document storage	Fireproof box in office closet	Safe code, alarm code, access code
Digital accounts	Password manager used; instructions stored separately	Master password, seed phrase, private key
Questions	Ask whether my beneficiary designations match my will plan	Confidential legal strategy or private identifying numbers

When to stop and get professional help

Consider professional help if you have minor children, a blended family, expected disagreement, business ownership, real estate in multiple states, special-needs planning concerns, tax questions, or uncertainty about signing rules. Will Checklist can help you prepare questions, but it does not create a legal document.

Where to begin online

Open willchecklist.com, click **Setup Wizard**, and follow one screen at a time. Return to the Dashboard when you are unsure what to do next.
